

MYTHBUSTING DE-EXTINCTION TO SORT FACT FROM FICTION

WHAT'S THE TRUTH AROUND DE-EXTINCTION? A NEW ZEALAND PERSPECTIVE

De-extinction hit the headlines recently with the 'resurrection' of the dire wolf and the push to bring back the moa. However, can scientists actually de-extinct animals, and more importantly, should they bring them back? In this talk Associate Professor **Nic Rawlence** from the Otago University Zoology Department will delve into the science, ethics, and indigenous concerns surrounding de-extinction.
